## ALAMEDA COUNTY DAY SEPTEMBER 2 AT STATE FAIR

### PRODUCTS OF SOIL BEING ARRANGED FOR ALAMEDA COUNTY DISPLAY

Rapid progress is being made for observance of Alameda-Contra Costa Counties Day at the California State Fair, according to late reports. With the fair running in Sacramento August 30 to September 9, Alameda-Contra Costa Counties Day will be observed Monday, September 2. Supervisor George P. Hellwig is a member of the committee on arrangements.

Centerville's participation is in the hands of F. T. Dusterberry, president of the city's chamber. Mayor Ambrose Rivolta of Pleasanton, and Ernest W. Schween, city clerk, have notified the fair that Pleasanton will take part.

Alameda County is planning a new exhibit for the 1940 California State Fair at Sacramento, according to Colonel Jno. U. Calkins Jr., chairman of the Alameda County Development commission, the designated agency of the board of supervisors to construct and maintain the exhibit.

Construction is already underway for the exhibit, which will be located in the main agricultural building at the fair grounds. Much attention will be devoted to the important vegetable industry, for which Alameda County is famous. Other products of the soil will be displayed, with cut flowers offering special attractions from day to day. The entire county will be represented in the exhibit with products of various types, states N. W. Armstrong, exhibit director for Alameda County.

Products of the soil will be featured, according to Chairman Calkins. The Board of Supervisors plans to visit the Fair on September 2, "Alameda County Day." George A. Janssen, Chairman of the Board, will head the party going to Sacramento.

Horse shows, races on the oval track, thoroughbred livestock, exhibits by the Future Farmers of America and 4-H projects, and a midway lined with amusement park attractions are also on the daily program.

### Willkie Volunteer Clubs Being Formed Through Township

Sixteen representative men and women of the Washington Township communities assembled at The Old Adobe Monday evening upon call of George C. Roeding Jr. and laid the groundwork for "Willkie Volunteer" organizations for each community.

Mr. Roeding suggested that a vacant building be obtained in each community where the public can pick up literature and can have their questions answered by volunteer workers.

Literature and buttons are being received slowly. Mr. Roeding said, because of the unprecedented nationwide demand for information regarding this presidential "dark horse" who was nominated by demand of the people.

Questions were asked and a general discussion was engaged in. Voluntary contributions were made to provide funds to pay costs of printing, buttons, and reflectorized rear license plates for automobiles.

The serving of iced orange juice and cookies by the host concluded the organization meeting.

### HEAR WILLKIE

CENTERVILLE — Friends here have received word that Mr. and Mrs. F. T. Dusterberry are now vacationing in Washington D. C. They also attended the Willkie acceptance speech ceremonies at Elwood, Indiana.

## ARMY NOW OFFERS FLYING COURSE TO COLLEGE MEN

According to Lieutenant George J. Dover, Jr., recruiting officer in Oakland, many young men have joined the Army due to the publicity created by the new Army "Silver Truck", which has and will visit the several localities about the East Bay during the week. Personnel with the truck will answer questions concerning the Army and will ride applicants into Oakland for acceptance. Several vacancies still exist in the 53rd Infantry, Camp Ord, Salinas, at Coast and Field Artillery posts and several other units throughout the West Coast. This "Silver truck" came to Niles last Monday afternoon.

Lieutenant Dover also says that young men between the ages of 20 to 27 who have had two years of college may learn to fly at Government expense, and be paid \$75.00 per month, with room and board while learning. Upon successful completion of the course, they will be commissioned in the United States Air Corps reserve as Second Lieutenants. Complete information is available at the Army Recruiting Station located at Room 219 Post Office building, Oakland, from 8:00 a.m. to 8:00 p.m., daily except Sunday, or from the Army "Silver Truck" which will be on the streets of local East Bay cities during the week.

### 'COT GROWERS MEET

CENTERVILLE — The Washington Township Apricot Growers association met Friday evening at Washington Union High School with Manuel Bernardo presiding. ### DUE HOME FROM "WAR"

### AIR FACTS

Reports from the California aircraft industry show that some 50,000 workers are now employed in the construction of airplanes in this state alone. As the U.S. defense program gets into its stride, more and more of these skilled workers are being drawn from every section of California.

On July 1, 41,000 Americans held pilot certificates. That's an increase of 14,856 pilots in a year! As usual, California led the list with 5826 pilots, an increase of 23.4 per cent over 1939.

## IRVINGTON FIRE INSURANCE RATES ARE LOWERED

In recognition of improved fire fighting facilities, better building design and construction, good community housekeeping, and a sustained high morale in the business and social life of Irvington and its environs, fire insurance rates have been substantially reduced in relation to dwellings not only within the city but also on all similar improvements subject to the protection of the Irvington Fire Department and Fire District defense facilities. The new rates become effective tomorrow.

Both the city and the fire district are to be congratulated upon the efficiency of their fire fighting forces. Both have proven their value in time of emergency.

Announcement of the reduction came from the Southern Alameda Association of Insurance Agents upon receipt by them of new rate books from the Board of Fire Underwriters of the Pacific.

Community betterment, especially in those functions which have to do with fire prevention and fire fighting, are the result of careful planning and able leadership. The local agents, fire department officials and the men of the fire service, supported in turn by the press and people, have joined in bringing about this favorable fire prevention and protection service.

Unity of purpose and action brought about this voluntary recognition by the fire insurance companies, and the resultant reduction in rates. Coming as it does at the post-holiday season, it is doubly welcome, and perhaps it would not be far fetched to add that since one hand washes the other, we, the people of Irvington must not forego our vigilant watchfulness — our alertness to the dangers of fire, but must continue to press for improvements and thus show our appreciation to the underwriters for their very evident confidence in our ability to properly safeguard the lives and property of our citizens.

Irvington's improvements consist of new water system and hydrants, new 500 gallon pumper, an organized fire department and a new fire station. The consequent reduction in fire insurance rates amounts to about 15 percent, this newspaper is advised.

## ORPHANS TO VISIT TREASURE ISLAND STARTING MONDAY

The week of August 26 through to August 31 has been designated as "Kiddies Week" at the California Exposition through a proclamation issued by Acting Governor Ellis E. Patterson. Through the proclamation some 40,000 youngsters, confined in orphanages and similar institutions throughout the entire state, will be enabled to see the fair free of charge, along with their attendants.

Arrangements have been made with various organizations and the exposition officials to transport the children, who will range up to the age of 18, to the exposition and return them to their respective institutions. Special programs and detailed plans for the entertainment of the youngsters during their stay at the fair are now being worked out.

Patterson was inspired to issue the proclamation when he recalled his days in an orphanage in Vallejo. "The Elks Lodge, at the time, used to take us on picnics" said Patterson, "but we kids longed to go to the 1915 fair. I remember how disappointed we were when the last day of the fair came and went and we never had the opportunity to see it."

"I would like, of course, to arrange to have all children in California attend the fair, but such arrangements, for the time, are not feasible. I am glad to have the opportunity, as Acting Governor, to enable these children to enjoy this bit of happiness. It is the least the State of California can do for them. I am assured of the full cooperation of the exposition officials in making 'Kiddies Week' a complete success in the happiness it will make possible for these children."

Public No. 645, to purchase Lot 99 in Tract 89 of Secs. 29 and 30, Twp. 4-S., R. 1-W., MDM., State of California, claiming the above land under color of title. All persons claiming the lands adversely will be allowed until Sept. 28th, 1940 to file in this office their objections to the issuance of patent under the aforesaid application, copy of objection to be served on the applicant. The appraised price of the land is \$0.96 cents. Ellis Purlee, Register.  
Date of first publication, August 23, 1940.

The Bank of America held a picnic at Linda Vista Park on Saturday August 17.

## WILLKIE'S ACCEPTANCE SPEECH

Republican Presidential nominee Wendell L. Willkie did not mince words nor ramble off into theoretical by-paths when he delivered his acceptance speech before quarter of a million cheering Americans last Saturday afternoon in his home town of Ellwood, Indiana.

He approached all the problems of foreign and domestic issues in a clear-cut, forceful succinct manner. He promised no Utopia or relief from work for Americans if he is elected; on the contrary he exposed an all but forgotten picture of that basic, rugged Americanism which has made our nation the greatest on earth in a century and a half: a picture which the modern period of time seems to have obscured from our minds and glossed over with our too-easy and too-soft manner of living in 1940.

He laid down the gauntlet to the New Deal, called Hitler what he is and generally aroused the Spirit of America which has been dormant for two decades.

He made no elegant theoretical medicine like his predecessor, painted no evanescent pictures of laziness for all, offered no ephemeral panaceas for our national ills, — the chief of which is sloppy thinking.

The only thing he forgot to say — and it is the same thing all the present day office holders and office-seekers forget to say — is this:

**Our country was founded and has flourished AS A REPUBLIC — not as a Democracy.**  
.... Strange as it may seem!

Time turned back about 40 years during his speech and brought to one's nostrils the fragrance of manhood and national virility which has been wanting these past ten or twenty years.

He rolled up his sleeves mentally and spoke from the plow-handles. He knows what's ahead of him and he's rarin' to get into the collar. He said the American way is totally opposite to the present European way, and Willkie says it is his business to preserve and perpetuate the American way as our forbears knew it.

An ex-soldier himself, he sounds like a pretty good man for the job that's ahead. —W.W.

## MASS PRODUCTION FOR DEFENSE

Americans are proud of our heritage of mechanical ingenuity and of our mass production methods by which we have manufactured the necessities and luxuries of life in great quantities. In good years, we have produced approximately 5,000,000 motor vehicles, which would mean about ten a minute day and night, week-days and Sundays. And we think nothing of it.

Now that national defense needs are imperative, it is only natural to assume that war necessities could be produced with just as great ease.

From that standpoint, a recent discussion by Alfred P. Sloan, Jr., Chairman of General Motors, sheds interesting light on the problem of mass production for defense. Mr. Sloan expressed confidence that American industry can produce whatever it may be asked to produce.

Lest the impression that miracles can be performed overnight gain credence, Mr. Sloan warns that such an assumption will only lead to confusion in the

### Boon To Summer Campers

Muriel Angelus, Hollywood film player, demonstrates the newly discovered method of keeping milk fresh for as long as three months. Above, left, she pours a layer of paraffin over the cardboard milk cap, shutting out all air. Center, she has fitted wax paper over the top of the bottle, fastening it to the neck with a rubber band. Right, once daily she removes it from the ice box in her automobile trailer and shakes it gently to mix the cream. Treated in this manner, and properly refrigerated, milk in glass bottles will remain sweet for as long as 90 days, according to dairy bacteriologists.

program and to unnecessary disappointment. He points out that even in the automobile industry, with its long experience in quantity production, the annual model changes require a year's intensive work. In connection with production of defense materials, he indicates the many steps required after the design is agreed upon, and cautions against over-optimistic expectations.

### HITLER'S NEAR-BEER

Some students of German psychology believe that the downfall of Nazidom will come only when the people discover that their idol has feet of clay and rise against him. That theory is due for a severe test ordered, perhaps unwittingly, by Hitler himself. A teetotaler, he has ordered production of a billion gallons of a new drink which will have "the stimulating effects of beer and be without the tiring influence of alcohol." In brief, near-beer! In this country, near-beer was rejected by prohibitionist and tippler, saint and sinner. It was, by national outcry, a floperoo. It died without friends. If the beer-guzzling Germans can stomach that from Hitler, the country may be given up as cowed beyond hope of internal salvation — and Hitler is destined to rule until and unless he is blasted out by the ale-drinking British.

### SCHOOLS AND THE THREE R'S

When California's army of elementary school youngsters march to their desks for the fall term a few days hence, they'll find the same familiar desks — but something new in study emphasis. The trend will be away from the "modern" and experimental in child training, and toward renewed stress on the old-time fundamentals of the 3 R's according to Walter F. Dexter, State superintendent of public instruction.

A section of the school code, which has been virtually repealed by non-observance in many schools, requires that a minimum of 50 per cent of each school week must be devoted to reading, writing, language study, spelling and arithmetic, in grades one to six, and a minimum of 600 minutes each school week in grades seven and eight. "It is the duty of the instructor to teach children to read efficiently, figure accurately, spell correctly, write legibly and speak effectively," asserts Superintendent Dexter in an interview in the current issue of the California Publisher. He adds his appreciation of "the expressed attitude of the press relative to this important subject."

The attitude of the California Newspaper Publishers Association probably parallels that of many dismayed parents. Many editors have been afflicted with cub reporters who know more about the history of journalism than the boss, but who can't write a clear, understandable account of a wedding or auto theft! Mr. Dexter may rest assured of the continued support of the press in his crusade — and surely of most parents and level-headed teachers.

### DEBUNKING FALSE PROPHETS

From: Nation's Business

The country's self-appointed reformers have been telling us that advertising raises the cost of living. Let's see. Let's take an example that everybody is familiar with.

Cast your mind back to what you knew or what your parents knew of the automobile of the first few years of this century. Then a big, heavy, unreliable gas eater could be bought, without top, windshield, horn or spart tire, for from two to six thousand dollars. Few people bought this expensive luxury.

But automobile makers saw a vision, a nation on wheels. They advertised persistently. More people bought. As production went up, the cost to make each car came down. Part of the saving was put into im-

provement. Part went into continued advertising. Part went to the public in lower prices. Again more people bought these better cars for less money.

And so it went, year after year. Continued advertising, production and value up, cost and price down, until today you buy an infinitely better, more efficient car, complete, for less than half of the lowest price of a few years ago.

The same is true of the refrigerator, vacuum cleaner, washing machine, oil burner, radio, electric light bulb; of packaged foods, clothes, and many another product that will come to your mind as you think this over. Advertising, says Nation's Business, has helped mass selling and made possible mass production, which cuts the cost and brings the price within the reach of the average family.

### JUVENILE STARS BILLED AT NILES THEATRE TUESDAY

Out of Hollywood to the Niles Theatre blazes Hollywood's greatest Juvenile review, the "Paramount Starlets of 1940", featuring the "Hughes Foursome." This sensational quartet has played many outstanding roles with Hollywood's major motion picture studios, as well as having appeared on various radio programs. They are soon to be featured on David Howell's "Starshots", a program starring young Walter Tetley, "Waldo" of the Fred Allen series.

Wally Boag, the boy with the limber legs, is a twenty-one year old lad with the educated feet, made famous in George White's Scandals. Meta Crawford, concert pianist, has been around the world eight times and earned much acclaim abroad, as well as here. Veleria Berton, Louisville Kentucky redhead, added much spice to "Broadway Melody of 1940" and "Waikiki Wedding."

May Louise Fowler, our eighteen year old Hollywood blonde, has just returned from an extended tour of the Hawaiian Islands, and will bring you her interpretation of the real Hawaiian Hula, as danced in "Waikiki Wedding."

Victor Robbins and Mary Moore, Hollywood's outstanding Juvenile ballroom team, will give you their interpretation of Fred Astaire and Ginger Rogers. These two young people have played in Star Maker,

starring Bing Crosby, and Shirley Temple's picture, "The Bluebird."

All of these unusually talented young people are appearing at the Niles Theatre next Tuesday night, August 27, only, Manager "Bill" Helm announces. A picture entitled "Boys of The City" will complete the bill that evening.

REASON — Just before Democratic readers of this newspaper remark that it is carrying too much Willkie - Republican material, permit me to say practically nothing of any news value is being received by me from Democratic sources . . . with the exception of a dreadful clip sheet which arrives weekly from Olson sources for the most part oozing with mud.

The Bourbons don't seem to be making any effort to "sell Roosevelt" to Americans — Roosevelt has been sold for two terms and he stands on his record.

Americans now have a chance to make a change in Washington — if they wish it. They can cling to established American traditions or they can go along with the New Deal for another four years, where ever it happens to be going! The choice is with the individual.

ICKES — Secretary Ickes' "answer" to Willkie's acceptance speech, delivered nationally on Monday was a puerile thing and

STATE FAIR IN  
SACRAMENTO

unworthy of any man in high office.

But then, no one can accuse Mr Ickes of being a broad gauge official. Let me cite you an example from my personal experience.

Two years ago in the San Joaquin Valley the citizens there were entirely opposed to having the Kings River Canyon area transferred from the national forest to the national parks system. Forest service officials themselves, some of whom I knew, were dead against it, chiefly as a matter of economy, and convenience to the public.

But Washington (as usual) insisted in its paternalistic way that the government knew what the people wanted better than the people did themselves — which is something of a travesty on "government by the people."

Some 35 Valley organizations: sportsmen, sheepmen, irrigationists, etc., banded together and demanded a public hearing be held in Fresno. Yes Man Ickes came out, held the hearing and gave all the time there was to any nobody who got up and spoke in favor of making the area a national park.

But: when any person of consequence got up to speak AGAINST the administration's will he or she was promptly gavelled out or order and made to sit down. Valley residents, newsmen in particular, were simply speechless with indignation at such an un-American procedure. — Anyone interested may look up pertinent editorials in The Fresno Bee, The Visalia Times-Delta, the Tulare Advance-Register and the smaller papers in that area, including the one I formerly owned there.

That episode was typical of the administration's "MUST" legislation . . . so San Joaquin Valley people's formerly free playground is now a national park with all its restrictions on the public, and increased administration expense, through the government, back to the people again.

As an example of "government by the people" the foregoing situation reeks to high heaven.

CLASSES — In spite of ourselves we have two very distinct classes of citizens in the United States: those who think and those who do not.

The intelligent class, representing our American culture — who do their own reading and thinking and form their own conclusions, is vastly in the minority.

The working class, which is vastly in the majority, does little or no reading, and even less thinking. They are easily swayed by emotion, visual impression, oratory and noise, and have nothing within themselves through which to sift the wheat from the chaff. These are the masses — who ex-

pect, and like, their superiors to do their thinking for them.

I have had apparently intelligent men tell me they did no reading of any sort, picked up desultory information from the radio, and spent all their leisure time in sports or recreation. That's a fine way to live — if your conscience doesn't bother you!

Unfortunately, the masses hold the bulk of power in this nation — and therein lies our danger. Mob psychology is a terrible force when let run free.

200 men and 148 women. Incidentally the average age of the men for that year was 75.05 and the women 73.29.

In their report for 1939 the trustees made the notation that 10 members were over 90 years of age, 25 from 86 to 90, 51 from 81 to 90, 85 from 76 to 80, 79 from 71 to 75, 58 from 66 to 70, 31 from 61 to 65, while seven were under 60.

## —Dean of Men

The honor of being the dean of men as to age goes to Frank White of Nevada lodge No. 13, Nevada City, aged 93. He was admitted to the home March 1, 1936. His mind is keen and while a trifle "shaky" on his legs he manages to get from his room in the Men's Dormitory for the proverbial "three squares" daily.

The honor of dean of women, in point of age, goes to Mrs. Adelaide H. Irvine, 91 Sacramento lodge, No. 40. Mrs. Irvine joined the circle on November 4, 1931. Favored with a pleasant, optimistic nature, Mrs. Irvine, although an invalid, gets about the residence building in a wheel chair through the kindness of Ira W. Tucker, 85, San Jose lodge No. 10, who entered the home May 12, 1933. Through the kindly attention of this, one of many "Good Samaritans", the genial woman is able to "make" the dining room each day for lunch and dinner. After the latter meal she tarries in the lobby for the early evening radio concert, being a lover of good music, and follows this with a quiet game of contract bridge in the small parlor adjoining.

## —Lover of Flowers

A lover of flowers she is always provided with them by Mr. Tucker both in her living room and on her table in the dining room. Incidentally, when informed that Mrs. Irvine, at 91, is now the dean of women in point of age, and that she loves flowers, George C. Roeding, Jr., president of the California Nursery company, complimented her with a beautiful potted plant of flowering tulips from the nursery of the Niles division, through the courtesy of the "home reporter". It was a kindly gesture much appreciated by the recipient 11 years beyond the age when a person reaching 80 is often referred to as an "octogenarian".

Entitled to the honor of dean of women in point of the number of years as a resident of the home is Mrs. Grace G. Davis who quietly observed her 86th birthday on May 1. She came to the home July 26, 1916. Although at present a patient in the hospital she has enjoyed good health and has given freely of her services in the carrying on of home work—probably having more to her credit in that line than any other woman in the home. When Mrs. Davis came to the home, 25 years ago, it had a membership of 127.

## —Oldest Male Resident

Isadore Franck, 92, native of France, is proud of his record which gives him the honor of being dean as the oldest male member in point of residence. Sponsored by the French lodge, La Parfait Union (Lodge) No. 17, San Francisco, he entered the home on January 10, 1916, about six months ahead of Mrs. Davis. His health, which is just fine, is due in large measure to the fact that he has good food and good care. A life time active as a violinist, a charter member of Musician's Union, No. 6, San Francisco, Isadore has given a great deal of pleasure to hundreds of persons as home violinist. Frequently he is made to feel that he's a young man again when leaders of visiting bands and orchestras invite him to lead one or more numbers.

Quoting Mr. White, he says: "I'm a tough old codger and am going to live to be a hundred".

Mr. Franck makes no predictions but says that all's well on the hill-top and he's going to live as long as he can. Isadore and Grace are known to each other as "Pa" and "Ma" and have sat at the same dining room table all these years without the least trace of dissension. Just now Isadore's only worry is, what has happened to his nephew, a member of the artillery

division of the French army.

For recent years at least the oldest woman in the Decoto home was "Grandma" Caroline Proctor, Pajaro lodge, No. 110, Watsonville, coming to the home in May, 1930, who passed away in January 1936 at an age of 100 years and six months.

Mary Fanshaw, Los Angeles lodge No. 42, whose residence dated from October 22, 1929, passed on in 1937 at the age of 96. Sarah Stevenson, California lodge No. 1, coming to the home June 30, 1933, and for many years a resident of Livermore, was called by death in 1937 aged 93.

IMPORTANCE OF  
VOTING STRESSED  
BY REPUBLICANS

With the Alameda County political spotlight centered on the August 27 primary, the vital importance of voting is being stressed by Republican leaders throughout the county.

"Democrats and Republicans alike have pledged support to Willkie," John J. Allen, Jr., chairman of the Republican County Central Committee, declared today. "It is essential that these same voters also support legislators favorably disposed towards the platform of the Presidential nominee."

"Alameda County has been traditionally Republican, and every effort will be made to return it to its former status as the leading Republican county in California."

"The campaign, however, is not merely to determine what political party gets into office, but rather to determine what system of government we shall have. The vital question is whether we shall continue the system of free enterprise and preserve democracy. Only by voting to preserve our Jeffersonian principles will America be free. California and Alameda County should and must show the way."

## Okanagan Valley Is Garden of Canada

FOR eighty miles Okanagan Lake splits the floor of the Okanagan Valley in the heart of Southern British Columbia. This valley is the Garden of Canada, and through it winds one of the most scenic highways in the Dominion. In the Okanagan orchards, mountain and lake combine to provide the perfect picture and the perfect motor tour.

In the heart of the southern interior of British Columbia, Canada, is the Okanagan Valley, the basin of lovely Okanagan Lake. Brilliant with sunshine, glowing with the warm tints of golden sands and carefully tended orchards, the Valley is a veritable "Garden of the Lord," and scenic beyond description. Pleasant little cities are ideally situated on the margin of the lake which winds for eighty miles between its flanking hills and provides marvellous vistas from every mile of the fine highway.

There is a choice of routes. Entrance may be from Vancouver, Canada's fascinating gateway to the Orient, through the spectacular gorge of the Fraser Canyon to Kamloops and Salmon Arm with its entrancing views of Shuswap Lake; or through Oroville, Washington,

to the International Boundary, and thence to Penticton at the foot of Okanagan Lake. The country is well populated and good accommodation throughout the area is plentiful. The fact of Canada's being at war imposes positively no restrictions on travel from the United States, and visitors pass in and out as freely as ever.

## Christian Science Churches

"Come and hear, all ye that fear God, and I will declare what he hath done for my soul." These words from Psalms comprised the Golden Text used Sunday, August 18, in all Churches of Christ, Scientist, branches of The Mother Church The First Church of Christ Scientist, in Boston, Mass.

The subject of the Lesson-Sermon was "Soul." Including among the Scriptural selections was: "I will bless the Lord at all times: his praise shall continually be in my mouth. My soul shall make her boast in the Lord: the humble shall hear thereof, and be glad. O magnify the Lord with me, and let us exalt his name together" (Ps. 34: 1-3).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, was also included: "Soul or Spirit signifies Deity and nothing else. There is no finite soul nor spirit. Soul or Spirit means only one Mind and cannot be rendered in the plural. Heathen mythology and Jewish theology have perpetuated the fallacy that intelligence, soul, and life can be in matter; and idolatry and ritualism are the outcome of all man-made beliefs" (p. 466).

Volume UP  
Price DOWN

IT HAS BEEN SAID that advertising increases the price of goods.

True, advertising is part of the manufacturer's and merchant's cost of doing business, all of which must be covered in the price of his goods if he is to stay in business.

But advertising helps boost sales and production. Bigger volume cuts cost per unit made and sold. To meet competition the saving is passed on to the public in the form of a lower price.

Think of the prices of radios, mechanical refrigerators and heating appliances, automobiles, light bulbs and other products when first introduced and sold in small volume. Compare with their prices today, after advertising won them enormous acceptance! Successful advertising decreases the price of goods.

## UTILITY RATES TO BE REDUCED DURING OCTOBER

Reductions in the gas and electric rates of Pacific Gas & Electric Company totalling \$5,000,000 a year were announced today by Commissioner Ray C. Wakefield of the California Railroad Commission.

The new lower rates will become effective during October. The savings to electric customers of the company throughout its entire system in northern California will be approximately \$2,000,000 and to the gas customers of \$3,000,000. Most of the reductions will apply to domestic and commercial customers.

"This is the largest single reduction ever made by the California Railroad Commission on any utility's rates in the 28-year life of the Railroad Commission," said Mr. Wakefield.

"Tax payments made by Pacific Gas & Electric Company to the federal, state and local governments is the largest single item of expense to the company, even exceeding labor costs. Both items have been substantially increased within the last six months.

Last year the commission effected a reduction of \$3,200,000 in the rates of this company; \$2,000,000 in 1938; \$3,100,000 in 1937 and \$3,900,000 in 1936.

### ENOS ATTENDS DISTRICT MEET OF JUNIOR CHAMBERS

Edward Enos, postmaster of the Niles Postoffice here, a National Director, and vice-president of the Niles Junior Chamber of Commerce attended the first district meeting of the current year of the California State Junior Chamber of Commerce for District No. 3 held Tuesday at Hotel Claremont in Berkeley, under the sponsorship of the Berkeley Junior Chamber of Commerce with Les McElwain, state vice-president in charge. There was a round table discussion on the subject of: "What the Junior Chambers of Commerce in each locality can do to benefit the members of Junior Chambers of Commerce in other communities in this district?"

State President Edward Cam-batalade, guest speaker, reported on the activities of other Junior Chambers of Commerce throughout the state. The invitations to the first district meeting were purposely limited to state directors and presidents of local Junior Chambers of Commerce in order that each individual present might have an opportunity to express his desires and ideas in regard to the manner in which he believes the district organization should be conducted for the benefit of the Junior Chambers in this district.

At Enos' suggestion the district officers promised to attend at least one meeting a year of the Niles Junior Chamber to secure information regarding the activities of other groups.

### EXPOSITION EXPECTS 6,000,000 ATTENDANCE

TREASURE ISLAND — With an average daily attendance of more than 45,000 every indication is that when the Golden Gate International Exposition is brought to a close September 29 the total number of Treasure Island visitors will have passed the 6,000,000 mark.

To reach this total a daily average of 49,646 is required. Labor Day weekend, August 31, September 1 and 2; Admission Day weekend, September 7, 8 and 9 and the four day Construction Industry Jubilee, September 12 to 15, inclusive, are expected to set new attendance records and bring the daily average comfortably over the required daily average.

At the same time figures obtained at the Exposition parking lot indicate a steady influx of out of state automobiles. Figures for the period, August 5 to 11, inclusive, show 5,358 "foreign" cars parked on Treasure Island. Of these the State of Washington was credited with 645, Oregon 580 and Texas 298. Illinois contributed 282 cars and New York 195.

## "NAME BANDS" TO BE FEATURED AT BIG STATE FAIR

HOLLYWOOD TECHNICIANS PROVIDE UNIQUE NIGHT ILLUMINATION

SACRAMENTO — Brilliant lighting effects, colorful decorations and name bands were stressed today as the complete program of the California State Fair, here August 30 to September 9, was announced.

Bands, scheduled to play, are programmed as follows: Horace Heidt's, Aug. 30 to Sept. 2; Skinnay Ennis', Sept. 3 and 4; Orrin Tucker's, Sept. 5 and 6; Kay Kyser's, Sept. 7, 8 and 9.

Each night, the bands with Rufe Davis, film comic, and a ballet of Hollywood starlets, will perform in front of the race track grand stand. They will move into Governor's Hall at 10 p.m. for public dancing.

Bob Hope, film star, is engaged for September 3 and 4; Bonnie Baker, for September 5 and 6, and Ginny Simms for the last three nights of the show. Other celebrities of song identified with the respective bands will appear with the different musical organizations on the evenings scheduled.

Horse racing will be run every afternoon, with harness racing only on Sundays. The horse show will be a nightly feature. County exhibit buildings, machinery displays and the extensive live stock exhibits will be open daily.

Hollywood studio electricians have succeeded in painting buildings and shrubbery with brilliant light effects as colorful as a rainbow, according to reports. The decorations in the fair are said to be finer and more artistic than ever.

Juvenility is recognized this year, with 15 newly erected buildings to house exhibits of live stock and agriculture, entered by Future Farmers of America and Four-H Clubs.

### GILROY GYM KHANA PROVIDES TURF ARENA

Cowboys will not "bite the dust" at the eleventh annual Gilroy Roundup and Gymkhana on August 31, September 1 and 2, despite the fact that cowboys will doubtless be sent sprawling from the backs of the vicious broncs and bulls during the exciting three day celebration.

Instead of "chewing gravel", the cowboys will fall upon a bermuda grass bed. So far as is known Gilroy has the only planted turf arena in the rodeo business. This green grass arena is only part of the new innovations of this year's Gymkhana.
